GEORGE STUART'S HISTORICAL FIGURES

George Stuart's Historical Figures, George Stuart, Ojai, California

*T*he Museum of Miniatures is honored to feature the works of renowned artist and historian George Stuart. Mr. Stuart's Historical Figures have long been admired for their beauty, historical accuracy and amazing detail, in both sculpture and costuming. Through inspiration, artistry and craftsmanship - using many techniques - Mr. Stuart has mastered the art of the three-dimensional figure. One actually feels the personality of the individual portrayed.

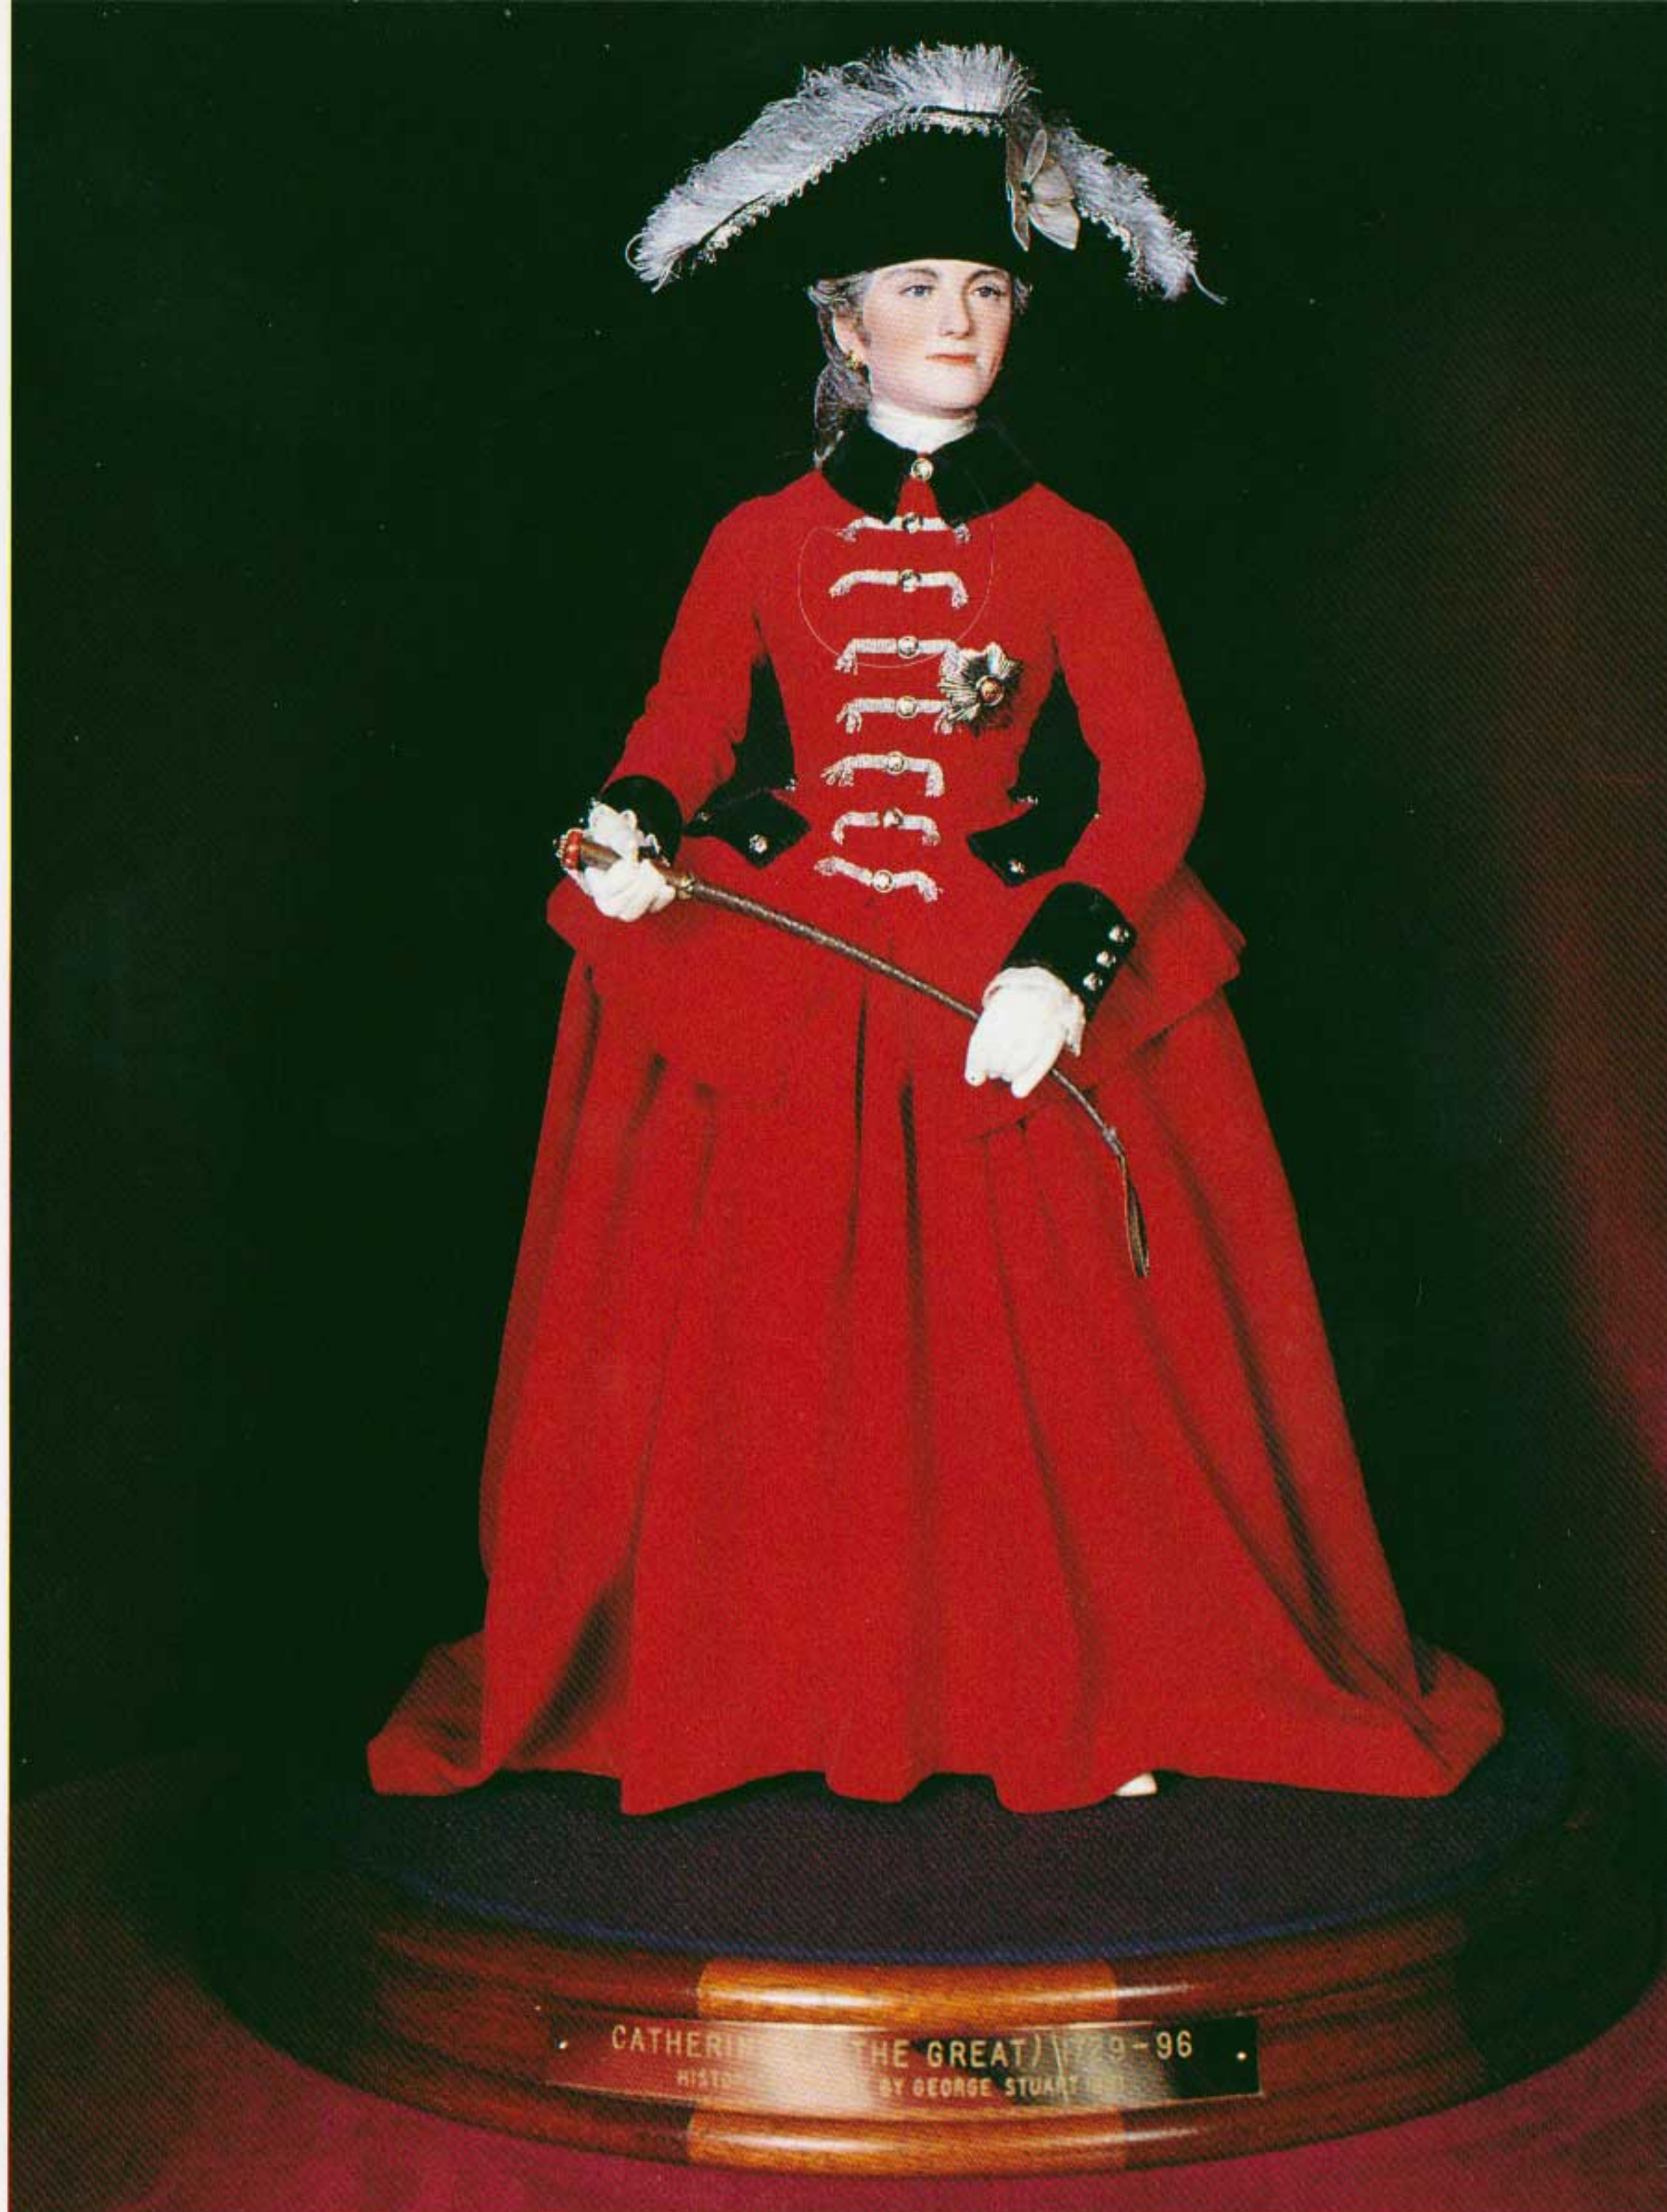

Although Mr. Stuart has created over 300 Historical Figures in 17 separate periods, he considers himself first and foremost, a performer. He often delights his audience with historical tales, bringing these characters to life and allowing us to know them and their role in history intimately. The Historical Figures are among the museum's most prized possessions.
